1. Anonymous Post Feed

Patient-Side Low-Fidelity Wireframes-SithCare Channeling App

2. Create New Anonymous Post

The wireframe shows a modal titled "Share Anonymously" with a close button (X) in the top right corner. Inside the modal, there is a "Category" section with a dropdown menu labeled "Select a topic". Below this is a "Your Message" section with a text input area containing the placeholder text "What's on your mind? Share your experience safely...". Underneath the text area is a checkbox with a label: "Your real name and profile are hidden. Only moderators can see account details for safety purposes." At the bottom of the modal, there is a "POST ANONYMOUSLY" button and a "PUBLISH POST" button with a right-pointing arrow.

3. Anonymous Reply Page

The wireframe shows a page titled "SithCare" with a "Back to Feed" link in the top left and a menu icon (three dots) in the top right. The main content area displays a post from an "Anonymous User" on the topic "Anxiety", posted "2h ago". The post title is "Struggling with sleep after a long shift" and the text describes difficulties with sleep after night shifts. It has 12 likes and 3 replies. Below the post is a "REPLIES" section. The first reply is from an "Anonymous Peer" posted "1h ago", sharing advice about blackout curtains and white noise machines, with 4 likes. The second reply is from a "Clinical Moderator" (verified) posted "45m ago", providing information about shift work sleep disorder and its impact on mental health, with 15 likes. At the bottom of the page is a "Reply anonymously..." input field and a "Send" button.
